

# Shelter-in-Place for Thunderstorm

When disaster strikes, it may be safer to stay in your home, place of employment, or other location. Learn where to go, what to do, and how long you should shelter-in-place for the hazards in your area.

**Lightning is a leading cause of injury and death from weather-related hazards. Thunderstorms are dangerous storms that include lightning.**

## Take Additional Safety Measures

When thunder roars, go indoors. A sturdy building is the safest place to be during a thunderstorm.

Go inside as quickly as possible. Bring any pets indoors.

If necessary, take shelter in a car with a metal top and sides. Do not touch anything metal.

Get to land if boating or swimming. Find a sturdy, grounded shelter or vehicle immediately.

Pay attention to weather reports and warnings of thunderstorms. Be ready to change plans, if necessary, to be near shelter.

Listen for current emergency information and instructions.
