- Making insurance available for both mortgages and home rehabilitation - HUD's Section 203(k) loan program enables those who have lost their home to finance the purchase of, or refinance of, a house along with repair through a single mortgage. It also allows homeowners who have damaged houses to finance the rehabilitation of their existing single-family home; and
- Making information on housing providers and HUD programs available - The department will share information with the Federal Emergency Management Agency (FEMA) and the State of Nebraska on housing providers that may have available units in the impacted counties.
